With OverDrive Read, you can read eBooks right in your browser with a single click - no software or downloads required.

OverDrive Read is a browser-based eBook reader that works on most computers, tablets and mobile devices running up-to-date web browsers. OverDrive Read is available for most eBooks from your digital library.

Meet Libby, the new app from OverDrive for enjoying ebooks, audiobooks and magazines from Seymour Library!

for additional information, call or visit

Seymour Library
176-178 Genesee Street, Auburn, NY 13021

Read, listen and enjoy with the OverDrive app. One app, thousands of eBooks and audiobooks available from the library in one place.

To download eBooks and audiobooks using the OverDrive app:

- Open your device’s app store
- Click on the search button and type in OverDrive. Select the OverDrive Media Console and click add/install to download.
- Open the app. You will be prompted to sign in. Search for Seymour Library by name or 13021 by location. Sign in using your library card and PIN.
- Tap Add a title. Search for a book or audiobook you wish to borrow. Tap Borrow and choose the loan period (7, 14 or 21 days). Tap Borrow again. Either tap Download EPUB eBook/Download MP3 audiobook now or X out to search for more books. The stack of books to the upper right will take you to your loans. Download your books, tap on the navigation menu (may look like lines in the upper left hand corner), go to Bookshelf, tap on the cover to get reading or listening!
- To return a book early in OverDrive: Open the app to Bookshelf. Tap and hold the cover of the book, a pop up will appear. Choose Return to library and then choose yes/return.
Do you have a traditional eReader and can’t use the OverDrive app? No problem! You can still borrow your next great read using a computer and transfer it to your eReader. Simply go to www.seymourlibrary.org. Click eLibrary in the top navigation bar (menu). Click the OverDrive link. Sign in using your library card and PIN, and browse for an ebook and borrow. Then, follow the Kindle or Nook (or basic eReader) instructions below to begin reading!

- From your account, click on the Choose a format button. A drop-down menu will appear; select Kindle Book. You will be directed to the Amazon.com website.

- Once the page has loaded, click on Get library book. You may be prompted to sign in to your Amazon account - remember that this is not the same as your library account. Your book should now sync wirelessly with your Kindle or be ready to transfer via USB cable.

If your device or download requires you to sync via USB cable, click on Download now.

- You will be prompted to save or open the file. Choose Save and select an easy-to-remember location on your computer, such as Desktop.

- Connect your Kindle to your computer using the USB cable.

- Open the Kindle drive, located in the My Computer or Computer menu for Windows, or on the Desktop for Macs. There will be several folders inside the drive; one will be labeled Documents. Move your downloaded eBook into this folder by clicking on the file and dragging it into the folder.

- Eject your Kindle and disconnect the USB cable from your computer & Kindle. Your downloaded eBook should now appear on your Kindle’s home screen.

To return your eBook, go to: Amazon.com/manageyourkindle and log in to your Amazon account. Your Kindle content will be displayed. Choose the title you wish to return (library books will say borrowed next to the title); check the Select box then click Actions > Return this book > and Yes when prompted. Your book is now returned.

- Click on the Choose a format button. A drop-down menu will appear. From here, select EPUB eBook.

- Before downloading the file, you will need to download and install Adobe Digital Editions (ADE) onto your computer. ADE requires you to register/create an account with Adobe before use. To do so, you must have an email account.

- When your book opens in ADE, connect your Nook to the computer via your USB cable, making sure it is powered on. Your Nook should now appear in the column to the left. If you see only the cover of your book, click on Library in the upper left. You will be asked to authorize your Nook with ADE the first time you connect it with your computer; you must authorize the device in order to transfer your book.

- Click on your book and drag it to the Nook; the book will show that it is being copied to the Nook.

- Once the book is fully copied, eject your Nook. Your book will be located in the My Documents folder under My Library menu.

To return your book, open Adobe Digital Editions, making sure you are on Library display. Right-click on the title you wish to return and select Return Borrowed Item. Your book should no longer appear in your library.
